AIM

1. The aim of this agreement is to standardize, for the use of the NATO Forces, the NATO Codes for Equivalent Grades of Military Personnel.

AGREEMENT

2. Participating nations agree that, when preparing personnel tables, requisitions, reports and returns destined for other NATO commands, the NATO code for equivalent grades of officer and non-officer personnel, as detailed in Annexes A to F is to be used. Nothing in this agreement is to prejudice existing national grades designations or procedures in purely national establishments.

GENERAL

3. The data provided in the Annexes is prescribed by each nation. Nations align their officers and non-officer

personnel to the Annex formats to show a transition from their lowest to highest ranks. If there are insufficient national titles to fill each NATO code, nations may enter the statement "No equivalent" in the appropriate NATO code space. In the case of officers, the codes OF-6 to OF-10 are to be used for one to five star ranks or equivalents respectively.

4. The code is to be used in preparing.
- a. Establishment tables.
 - b. Personnel statistics.
 - c. Strength returns.
 - d. Personnel requisitions.
 - e. Other reports dealing with personnel, to include Automated Data Handling (ADH) reporting procedures.
 - f. Matters dealing with protocol and precedence.

For personnel requisitioning purposes, the code must be used in conjunction with the approved manning document.

5. Annexes A to F outline the NATO code for equivalent grades of military personnel for each nation. Unusual ranks and grades which are virtually unique to a nation are to be excluded from the code system and explained by footnotes to the appropriate Annex.

6. When a report includes personnel of different nations and different services, the grade is to be preceded by the national distinguishing letters (as per STANAG 1059) and one of the following abbreviations for the service concerned: (A) for Army, (N) for Navy, (AF) for Air Force and (SI) for Service Immaterial.

Example : Belgian Army Colonel - BE(A) OF-5.

IMPLEMENTATION OF THE AGREEMENT

7. This STANAG will be considered implemented when the

necessary orders/instructions to apply the information contained in this Agreement have been issued to the forces concerned.

ANNEX C TO STANAG 2116 (Edition No 3)

OFFICER PERSONNEL - NAVY

NOTES

BE

- (1) The "Lieutenant de Vaisseau de 1ère Classe" is a Junior Officer OF-2 who may perform the function of a Capitaine de Corvette OF-3.
- (2) The "Premier Maître-Chef Milicien" is to be considered the same as a Junior Officer OF-1.

CA

- (3) The Navy of Canada is referred to as the "Sea Element" of the Canadian Force. The ranks shown on this table are used on duty only but not for record purposes. (Same ranks for all three Elements).
- (4) Ranks for female officers are the same as those shown in above column.

FR

- (5) This is not a rank but a title, which corresponds moreover to a high position in the State ("Dignité dans l'Etat").
 - (6) Corresponds to an appointment and a designation and not to a rank.
 - (7) In the French Navy, the equivalent of the Anglo/US "Commodore" is the Captain ("Capitaine de Vaisseau") holding official command of a Squadron.
 - (8) Female officer personnel are divided into four "Classes" with the following rank equivalents:
 - OF-3 "Hors Classe"
 - OF-2 "1ère Classe"
 - OF-1 "2e Classe and 3e Classe"
-

- GE (9) Equivalent rank exists for medical personnel
(Doctors):
OF-8 "Admiraloberstabsarzt"
OF-7 "Admiralstabsarzt"
OF-6 "Admiralarzt"
- (10) Equivalent rank exists for medical personnel
(Doctors, Chemists):
OF-5 "Flottenarzt, Flottenapotheker"
OF-4 "Flotillenarzt, Flotillenapotheker"
OF-3 "Oberstabsarzt, Oberstabsapotheker"
OF-2 "Stabsarzt, Stabsapotheker"

-
- GR (11) The equivalent ranks for Legal Corps, Religious Corps and Army Nurse Corps are as follows:

<u>NATO CODE</u>	<u>LEGAL CORPS</u>	<u>RELIGIOUS CORPS</u>	<u>ARMY NURSE CORPS</u>
OF-8	ANATHEORITIS A	-	-
OF-7	ANATHEORITIS B	-	-
OF-6	ANATHEORITIS C	-	-
OF-5	DIKASTIKOS SYMBOULOS A	PROTHIEREYS A	-
OF-4	DIKASTIKOS SYMBOULOS B	PROTHIEREYS B	DIEFTHINOUS A
OF-3	DIKASTIKOS SYMBOULOS C	PROTHIEREYS C	GENIKI PROISTAMENI
OF-2	BOITHOS DIKASTIKOS SYMBOULOS A	IEREYS A	PROISTAMENI
OF-1	BOITHOS DIKASTIKOS SYMBOULOS B	IEREYS B	ANTIPROISTA- MENI
OF-1	BOISTHOS DIKASTIKOS SYMBOULOS C	IEREYS C	EPIVLEPOUSSA

-
- IT (12) Rank applicable only in wartime.
- (13) High military appointment which carries the
"four star" rank mark.

-
- NL (14) Rank very rarely held.

(15) The same ranks exist for female personnel.

NO (16) Ranks of female officers are identified by the prefix KIF, the highest rank being OF-3 KIF Major/Orlogskaptain.

PO (17) A flag officer who is carrying or has carried on the duties of Chief General Staff for the Armed Forces, Deputy Chief of General Staff for the Armed Forces, President of the Supreme Military Court or Chief of the Portuguese General Staff for the Navy.

UK (18) The ranks, titles and equivalents of the Queen Alexandra's Royal Naval Nursing Service (QARNNS) and the Women's Royal Naval Service (WRNS) are as follows:

	<u>QARNNS</u>	<u>WRNS</u>
OF-10 to OF-7 inclusive	No equivalent	No equivalent
OF-6	Matron-in-Chief	Commandant
OF-5	No equivalent	Superintendent
OF-4	Principal Matron	Chief Officer
OF-3	Superintending Sister/Matron	First Officer
OF-2	Senior Nursing Sister	Second Officer
OF-1	Nursing Sister	Third Officer

QARNNS rank with, but before officers of the WRNS; both QARNNS and WRNS rank with but after officers of equivalent rank in the Royal Navy and Royal Marines.

A Captain RN with more than 6 years seniority has "one star" status even though not appointed as "Commodore".

- (19) Royal Marine ranks are similar to those of the Army, but not in all respects equivalent. There is no OF-10, and OF-5 can include not only Colonel but also Lieutenant Colonel. Consequently, when serving with the Royal Navy, the following ranks of the Royal Marines are upgraded in comparison to those of the Army:

Major, RM : Equivalent to OF-4
Captain, RM : Equivalent to OF-3
Lieutenant, RM : Equivalent to OF-2

These gradings apply to substantive rank. It will be usual for RM officers in NATO posts to hold local higher rank, when they will equate with Army Officers of the same rank title.

-
- US (20) The same ranks exist for female personnel up to OF-5 inclusive.
- (21) The Warrant Officer is a separate and distinct category of personnel in the US Forces. His rank and precedence are below those of a Second Lieutenant but above those of an enlisted man. Consequently, Warrant Officer grades cannot be included in either the "OR" or "OF" grade codes. Warrant officer grades are as follows for all US Services:
- W-4 "Chief Warrant Officer"
W-3 "Chief Warrant Officer"
W-2 "Chief Warrant Officer"
W-1 "Warrant Officer"
- (22) Although the US Marine Corps is part of the US Navy, ranks correspond with those of the US Army, except that the US Marine Corps has no equivalent for OF-10.
